Dear Wolf

To answer your questions:

- A reference presentation is what Rick previously had called "canned" presentations. These will be for WSA members to use for various audiences when any update is needed.
- Rick routinely presents to management about what is going on in our group as does other regional personnel. These would be used for their "reference", hence the name "reference presentation." This was discussed during our June 4 staff meeting.
- I really do not think a format has been specified; it probably depends upon the given topic. For the topics of Biomarkers of Effect and Assays, I would assume what project work INBIFO is doing on these areas would be sufficient.
- I really did not specify a time frame; however, as soon as possible, I would assume is what Rick would want.

If you have any further questions, please let me know.

Dear Loreen:

Please specify:
- What is a reference presentation?
- What is its purpose/objective?
- What is the format (presentation, planning charts, outlines, concepts?)?
- When do you need it?

Please provide an example.

Best regards,
Wolf Reininghaus
